Environment improvement measures to ensure a sustainable Green Campus

The relationship between CICBMS and nature is a long and enduring one, something that students and staff of the college are aware of. The buildings of this educational institution stand on the solid rock, a topographical feature that the Congregation has consciously chosen to preserve and protect. CICBMS is very often recognized as the college with huge rocks jutting from the concrete giving it a completely natural and organic facade.

Since 2009, the college has always had sustainable initiatives at the core of all activities. 3.75 acres lush campus in the Diplomatic Enclave only 2366 sq.mt. has been built up. The rest of the campus can be categorized as playgrounds, lawns and gardens. A huge area is left in its natural form and acts as a natural habitat for biodiversity and a large variety of species of grasses, herbs, shrubs and trees.

Scope of the Policy

The Green Campus, Energy and Environment Policies will develop exciting new co-curricular and extracurricular practices that encourage students to take the lead in creating positive change. These initiatives call for a thorough review of all infrastructural, administrative functions from the standpoints of energy efficiency, sustainability and the environment.

The focus areas of this policy are:

→ Clean Campus area under Clean Campus Initiatives

→ Clean Air Initiatives

◆ Smoking Free Campus

→ Infrastructure

◆ Solar Power Plant

◆ Installation of Energy Efficiency Equipment

Policy: Clean Campus Initiatives

CICBMS had pledged to actively coordinate cleanliness activities in the college and beyond the campus in accordance with the vision of Swachh Bharat Abhiyan. It commits to continue with this Programme.

The broad vision is as follows:

1. Generating mass awareness on cleanliness and hygiene amongst students and staff members by holding regular cleanliness drives. The idea is to motivate them to contribute in a proactive manner.
2. Activities under 'Swachh Bharat Abhiyan' will be a key component of all the community work being done by volunteers of the college.
3. Staff Members will be encouraged to participate in the cleanliness drive in the college campus.
4. Events such as poster and slogan competitions, essay writing, spoken word poetry, speeches, skits on 'Swachh Bharat' will be organised.
5. Rallies on themes connected with 'Swachh Bharat Abhiyan' in and around the college campus will be conducted to create mass awareness.
7. Remove all kinds of waste material like broken furniture, unusable equipment etc.
8. Administer of the pledge by students and staff members to maintain cleanliness of the college campus and its surrounding areas on an annual basis.
9. Conduct workshops on the 3Rs: Reduce, reusing and recycling of waste.
10. Commit to manage waste and maintain clean campus especially during college events.

Infrastructural Initiatives

Renewable Sources of Energy

The Institute is dedicated to minimize and sustainably manage its use of electricity. The college believes in reducing the consumption of electricity produced by non-renewable resources by switching to clean energy sources like solar energy for purposes like lighting the campus.

Energy Saving and Energy Efficient Equipment

We commit to install environment-friendly electrical appliances that save energy and reduce wasteful inefficiencies. The college believes in using clean energy such as LED lighting.

Water Conservation through Rain water Harvesting System

As an institution located in the rural area of Nagpur District, the Institute has also committed itself to this effort to replenish the ground water table by practicing rain water harvesting. This practice helps in the replenishment and recharge of the groundwater.

Waste Water Management System

CICBMS strives to have a minimal impact on the environment and is dedicated to reduce and manage the waste generated by the college campus. The following specific procedures will be undertaken to ensure CICBMS's contribution in protecting the environment.

Solid Waste Management: With its aim to provide holistic education that also has a positive impact on the environment, the college will adopt practices that will mitigate the generation, and manage solid waste through the following methods:

- Systematically engage with the 3Rs of environment friendliness (Reduce, Reuse and Recycle).
- Collect paper waste produced on campus and collaborate with scrap dealers for recycling.
- Reduce solid waste by developing a technology-centric teaching and administrative model.
- Reduce use of paper by supporting digitization of attendance and internal assessment records.
- Reducerequirementofprintedbooksbyupdatingthee-booksande-journalscollectionofthecollegelibrary.

LONARA, NAGPUR

[DTE CODE : MB4129]

- Encourage the students and teachers to use emails for assignment submissions.
- Take initiatives to spread awareness amongst students about
- Food wastage and ways of minimizing it
- Minimizing the use of packaged food
- The habit of reusing and recycling non-biodegradable products
- Organizing workshops for students on solid waste management.

Liquid Waste Management

- Maintain leak proof water fixtures.
- Minimize the use of water by constructing more Indian style toilets instead of western style toilets.
- Continued employment of a caretaker to take immediate steps to stop any water leakage through taps, pipes, tanks, toilet flush etc.
- Prevention of release and mixing of oil from the college canteen liquid waste in the municipal drainage system by use of Grease trap mechanism. This way the Biochemical Oxygen Demand is reduced in the effluent waste water produced by the CICBMS canteen.
- Reuse of waste water generated by the Reverse Osmosis (RO) system in washrooms.

Plastic-Free Campus

CICBMS has been observing most of its duties in terms of solid waste management since its inception. In view of the Government of India's resolution to ban all single use plastics due to the hazardous impact of plastic use and pollution, the college administration strictly bans the use of single use plastics in its premise to make it a 'Plastic Free Campus'.

Conduct Green Audit

The college aims to regularly conduct a Green Audit of our college campus to assess our strengths and weaknesses to further our goals of long-term sustainability. A green audit is a useful tool to determine how and where most energy or water or resources are being used. The college can then consider how to implement changes and make savings. It can determine the type and volume of waste. Recycling projects or waste minimization plans can be adopted. It will create health consciousness and promote environmental values and ethics. It provides a better understanding of the impact of eco-friendly practices on campus. Green auditing will promote financial savings through reduction of resource use. It is imperative that the college evaluate its own contributions toward a sustainable future.

Conduct Energy Audit

An Energy Audit to be conducted as and when required to further reduce its carbon foot print. The importance of reducing energy consumption cannot be overstated. The energy audit, with its specialized tools will identify wastage of energy. Such an inspection often reveals several different flaws which cause a loss of significant amounts of energy which the college will not be able to detect. These flaws often have easy and affordable solutions and provide significant savings.

Clean and green campus initiatives

Activity: Plastic Free Awareness Campaign

Participants: 18

Date of Activity: 5 Jun 2022

Place: CICBMS, Lonara

Objectives: To educate people on ill-effects of Plastic waste pollution on the Environment and Human health.

Report:

Central India College of Business Management & Studies organized a "Plastic Free Awareness Campaign" on the occasion of World Environment Day. The theme of the campaign was 'Plastic Free Cleanness Drive'.

The campaign was flagged off by Dr Yasmin Shidhaqui, Principal, Central India Adhyapak Vidhayalay.

Dr Yasmin Shidhaqui motivated the students and stressed that campaign would go a long way in inculcating eco-consciousness among the young generation which would contribute to the benefit of society for healthy life by way of protecting the environment.

During the campaign the students along with the staff members cleared the campus by collecting the waste plastic like empty water bottles, juice bottles, polyethene, chips wrappers, etc.

Students and faculty members delivered informative talks and interacted with the other students, people in Lonara village, thereby spreading awareness about plastics and their impacts and ways to reduce them. Reuse and Recycling is not the only effective solution to plastic pollution, but one has to avoid the use of plastic wherever possible.

Activity: Tree Plantation Program on World Conservation Day

Participants: 25

Date of Activity: 3 Dec., 2021

Place: CICBMS, Lonara

Objective: To create awareness on issue of environmental conservation

Report:

Central India College of Business Management & Studies had organized 'A tree plantation programme on the occasions on World Environment Day'. The Chief guest of the program was Dr Anees Ahmed, Ex-cabinet minister and founder of the santha.

Mr Ahmed in his speech spread awareness about the importance of trees in our lives and for the environment. informed the students about the issue of environmental conservation and made them aware about the causes and side effects of global temperature rise.

Dr Abdul Ahad. Principal educated the students about the importance of trees and the need to plant more and more trees to protect the environment for a sustainable growth.

The students participated in the drive enthusiastically and helped each other in planting the saplings in the college premises.

Plantation Activity carried out at the college premises
